Northwest Missouri State Teachers College

VOLUME XIII

MARYVILLE, MISSOURI, WEDNESDAY, OCTOBER 27, 1926

NUMBER 5

Beat Kirksville Friday---Then Vote on Tuesday

Budget For the Next Two Years Up to Tax Body

College Asks for a Total of \$781,149.08, With Which to Maintain Institution During 1927-28 Period.

The College is going to ask the state legislature for an appropriation of \$781,149.08 with which to operate the institution during the biennial period of 1927-28, according to figures in the budget submitted to the Missouri Tax Commission Monday. This amount is more than eleven thousand dollars less than the total money appropriated by the legislature for the 1925-26 period, and is more than ninety-seven thousand dollars less than the budget prepared for the tax commission two years ago.

Perhaps the most outstanding thing in connection with the budget this year is that it calls for no appropriation to meet deficiencies incurred during the present. All of which, in plain words, means that the institution has paid all of its debts in 1925 and 1926.

The budget this year is under three separate main heads, each of which is subdivided according to the items which it covers.

For salaries and other maintenance, excluding new buildings, and reappropriations, the budget asks for \$475,500. For new buildings and alterations, the sum is \$260,000, and for re-appropriation it is \$45,649.08 plus interest until time of payment.

The budget of two years ago called for an appropriation of \$54,189.04 to meet deficiencies incurred during the two-year period. There is no such item in the budget submitted this week.

At the beginning of the present period, the General Assembly appropriated \$792,8 6.72 for the College. Of this amount, \$442,217.4 was released by Governor Baker, and in the neighborhood of \$350,000 was held up for lack of funds. The items in this year's budget for new buildings and alterations, and for reappropriation cover the amounts appropriated by the General Assembly but never released by the governor.

The entire budget for the 1927-1928 period is in fourteen divisions. The College is asking \$335,000 for salaries, \$10,000 for summer school, \$10,000 for student labor, and \$12,000 for rural education.

The item of correspondence and extension calls for an appropriation of \$10,000, and a total of \$18,000 is asked for the College library. Of this amount, \$15,000 is for books, and \$3,000 is for equipment.

Supplies and equipment draws an item of \$20,000, and general repairs and improvement calls for an appropriation of \$20,000.

(Continued on Page 2)

St. Benedict's Team Ties Baker, 0 to 0

Fumble and Penalty within Shadow of Goalposts Averts Score for University Eleven.

A fumble and a penalty within the very shadows of the St. Benedict's goal post averted a score for the University Eleven in their victory over the St. Benedict's aggregation at Atchison last Friday, and the game ended with the score tied 0-0.

With but a few minutes to play the Baker team had carried the pigskin to the St. Benedict 5-yard line. By line plunges the ball was carried four yards farther only to be lost on a fumble right on the goal line but the back field was in motion on the attack and the penalty carried the ball back to the St. Benedict's 6-yard line. Then St. Benedict's held for downs and kicked out of danger.

The Bears' play St. Benedict's here in Maryville November 5.

Rule on Emblems

At a recent meeting of the Student Council, the student regulation governing the wearing of emblems and letters of other colleges on the campus was amended. There were a few points in the regulation which were objectionable and the council believes that it has worked out a fair regulation that recognizes the rewards of other colleges of equal rank.

The regulation as it reads with the amendment is as follows:

1. No emblem or letter from any other school shall be worn by any student of the college in any building, or on the college campus, unless it be the regulation state "M" award granted universally throughout Missouri as a state award; or unless the letter has been awarded by a college of equal rank, and then only until the student has had an opportunity to earn or has earned a letter in this college.

2. No student shall wear any letter or emblem of the Northwest Missouri State Teachers College unless it shall have been duly awarded to that student.

Violations of this regulation will be brought to the attention of the judiciary committee, consisting of students and faculty members, and disposed of as they see fit.

Mr. Kinnaird will judge a school fair at Skidmore Friday.

Miss Fox of the Romance Language department will go to St. Joseph Friday night for the first of a series of extension courses in second-term Spanish.

Miss Martha Kennedy, a graduate of STC, was visiting the school one day last week.

A New Program For the College Dramatics Club

Organization, Now Far Too Large, Will Be Divided Into an Advanced and an Elementary Section for Best of Year.

An enlarged dramatics program at the College was announced today by Miss Dow, chairman of the department, and Miss Eastman, her assistant. This enlargement follows the large enrollment in the College Dramatics Club. The number of students now in the club is in the neighborhood of 200, and the two instructors have found that this is much too large a body to handle properly and thoroughly.

Therefore, in the future, the Dramatics Club will be in two divisions, one for those who have had experience in plays or who have had classes in public speaking or dramatics, and the other for those without experience.

The advanced section of the club will meet on the second and fourth Tuesdays in each month, and the second section will meet on the first and third Tuesdays. Meetings will be at 7:30 p. m., and will be in the College auditorium. Each meeting night of the advanced section will witness the presentation of two one-act plays. The second section will spend part of each meeting night taking instruction in public speaking and dramatics, and the rest of the hour in a short play or scene from a play. These latter will be criticized at the meetings.

It is planned to have at least one meeting each quarter, at which the club will present something outstanding. Two and probably three major attractions will be on the dramatics program for the year. The junior play for the benefit of the Tower and the annual senior play will be given in the spring. Then it is planned that perhaps a major entertainment will be given late in November for the benefit of a forensics fraternity which is to be organized at the College. "Rolla's Wild Oats" is being considered for this production.

Two one-act plays will be given by the advanced class at the next meeting. They will be "Sham" and "The Man in the Bowler Hat", a farcical comedy by A. A. Milne.

In the last few years dramatics has been growing as an extra-curriculum activity at the College. Within that time a number of creditable productions have been offered to the public. It is the policy of the dramatics department to select casts for all major productions from the membership of the Dramatics Club.

Ployd Cook, A. B. 26, now attending the Missouri University, was visiting with his parents in Maryville over the week end.

Can't You Ask a Question or So Of Miss Hudson

"May I use the College car, Miss Hudson?"

"What room is my class to meet in, Miss Hudson?"

"When may I see the president, Miss Hudson?"

"Where is Dean Barnard, Miss Hudson?"

"What's on at assembly today, Miss Hudson?"

"How many stamps will this package take, Miss Hudson?"

These are a few of the many questions piled daily to Miss Hudson, secretary to President Lamkin. From her place of advantage in the outer administration office, Miss Hudson is the target for information of all sorts and degrees of intelligence from everyone from freshman to faculty department chairman.

Miss Hudson is a College product, holding her B. S. degree in education from S. T. C. In addition, she was a student in the Chicago School of Physical Education. From 1920 to 1922 she was secretary to the president and an assistant in the women's physical education department. Since then, partly because of so many questions which she has taken time to answer, Miss Hudson has devoted her entire time to office duties.

"By the way, Miss Hudson, what time does the noon whistle blow?"

Bearcats Face a Crucial Game in Kirksville Tilt

Maryville Team Downs Springfield Bears at Springfield Last Friday by Margin of One Well-Booted Field Goal.

The College Bearcats will travel past their third milestone in the race for conference football supremacy Friday when they meet the Kirksville Bulldogs at Kirksville. This game will mark the next-to-last Missouri Intercollegiate Athletic Association tilt of the season for the local team, and it will also mark what is conceded to be one of the hardest games on the 1926 schedule.

Coaches Lawrence and Jones will take a squad of possibly twenty men to Kirksville. The team will likely leave some time Thursday and will return to Maryville Saturday.

Last Friday afternoon hundreds of hearts were made happy when the Bearcats triumphed over the Springfield Bears at Springfield by a 3 to 0 score. The Bears were feared greatly by Bearcats and fans alike, and Maryville was a happy town Friday evening when the game was over. The winning tally came almost at the end of the first half of the game, when Captain Ends, who was suffering from an injured shoulder, was substituted in the Maryville lineup for but one play with the ball in the shadow of the Springfield goal. It was fourth down, and the dependable "Ikey" booted a perfect golf from the field and then trotted off the gridiron, a good day's work completed.

In spite of the small margin of victory, the statistics of the game and the reports of the fans who saw it agree that Maryville was the superior team. On defense the Maryville line was far the tighter of the two, and on the offense the Bearcats were more of a threat.

As far as first downs are concerned, the Bearcats had the decided edge, the odds being 8 to 2. The Bearcats did not make a first down in the initial quarter, but they negotiated three in the second, three in the third, and two in the final period.

On yards from scrimmage, the Maryville team made 131, while the Bears were totaling ninety, forty of which came on a long broken field run.

A series of seven fumbles, five of which Maryville recovered, was disastrous for Springfield. The Bearcats fumbled twice, and Springfield recovered the ball each time.

Penalties were more costly to the Bearcats than fumbles.

(Continued on Page 4)

Amendments Are Discussed by Mr. Cook at Meeting

"Consensus of Opinion Favors Numbers One and Two and Is Against Three and Four," Teacher Says.

In discussing the four amendments coming before the Missouri electorate, Mr. Cook characterized the use of the initiative and the referendum as a somewhat ill advised manifestation of the present day trend toward popular government, before the Social Science Club last Wednesday night.

Historically when state commonwealths were forming their constitutions much fewer less they place too much power in the executive authority of the States and much power was placed in the hands of the legislatures until such times it was observed that local legislatures were easily influenced and therefore the people's interests were sacrificed to certain institutions and other concerns, whereupon there was a turn back of increasing the power of the executives as against the power of the former legislatures for a higher centralized authority.

In the modern day, at least in the last 25 or 30 years, there has been a radical return to the placing of the power in the hands of the people, which has brought us the present system of the initiative and the referendum, the recall and the primary election.

"We have again swung," said Mr. Cook, back to the theory of popular government until today we have gone so far that some measures in use are impractical. In theory the initiative and referendum and the direct primary are all right, but in practice too often do we find quite imperfect results.

"Because of a general apathy and ignorance of the electorate the referendum can be used to defy intelligent and honest legislation. Were it not for the strong condemnation of liquor in Missouri and the organized opposition to Number Four, such a result might ensue when Number Four is voted on. However, I have no fear that it will be adopted.

"In regard to the other amendments, it is pretty well agreed that Numbers One and Two should be adopted. Number Three was evidently placed upon the ballot for the purpose of confusing the voters. For the most part it is identical with Number One. However, Number Three is not as desirable as Number One."

Miss Dow has received word that her brother-in-law, Lashley G. Harvey, principal of the Greybull, Wyo., High School, has won a national prize for the best lesson plan for the teaching of history. His plan was published in the September number of "Current Methods."

New Talent Shown In Eureka Meeting

Next Meeting of Society to Feature a Journey to Sunny France, Program Indicates.

The Eureka Literary society had a most enjoyable program last Thursday and at the same time discovered some new talent, especially in extemporaneous speaking. Eva Hatfield gave a reading depicting the trials of a small boy and Mary Goodpasture played a piano solo. There were a number of one minute talks given on subjects that had been passed out. Some of the more interesting discussions were on the subjects of dates, vanity cases, Pinology, ect. Chilton Ross sang a vocal solo.

At the next meeting the Eurekaans are expecting to take a trip to sunny France, provided that their ship comes in.

All Are Purebreds

In the fall of 1924 the first livestock owned by the college was brought to the college farm. The original herd consisted of a few head of registered Jersey cows. Today the herd consists of 20 purebred Jerseys, ten or twelve of which are old enough for production. The college herd furnishes all the milk used in the college cafeteria. The gross production from the herd at present runs from \$150 to \$225 per month.

In the fall of the same year the college farm started with six registered Poland China sows. These sows have raised two litters of pigs each year which are marketed at six months of age. These pigs have always weighed around 250 pounds. Fall pigs have weighed 200 pounds or better at six months of age. In the neighborhood of \$1500 worth of hogs has been sold each of the two years since hogs have been raised on the farm.

While the very best of purebred Jersey cattle and Poland China hogs are raised it has not been the object of the farm manager to enter the field of breeding stock, all hogs going to the packing market. Although five or six bull calves of the best registered cows have been sold in Nodaway and adjoining counties for breeding purposes.

W. A. A. Initiates 20 Members Monday

The W. A. A. held an initiation meeting Monday in the east gym for the benefit of the new members. There are twenty new members in the organization. A picnic was held in connection with the initiation and all members enjoyed the meeting very much. There were twenty-five members present. Margaret McMurry is the president for the next two quarters.

Bears Growl and Bearcats Strut, All Because "Ikey's" Toe Has the B. S. Degree in Education

"Lay-de-ee and gentlemen," (and the florid man in the billed shirt and plug hat wiped the perspiration from his brow and took a fresh grip on his big, black cigar, "permit me to introduce to you that mightiest of mighty, outstandingest of outstanding, ultra-magnificent man of the hour, the honorable David Lloyd George Christopher Columbus Subarb Vasselina Ends, the irrepressible Jew."

(More mopping of countenances and volley after volley of applause.) Such would be a fitting introduction for the be-mustached captain of the Bearcat football team, in view of the fact that his bachelor-of-science-in-education toe performed so creditably in the Springfield game of last Friday.

For it was "Ikey," and an injured "Ikey," too, who went into the game and booted a field goal which proved to be the only scoring of the game.

Down at Springfield they are beginning to become acquainted with "Ikey" Ends. In fact they are wishing down at Springfield that this Maryville captain of ours had never seen a football. Some of them are so hard-hearted as to wish that this old earth had never been inhabited by anyone

bearing the name of Ends.

And well they may feel that way about it. For had not "Ikey" Ends come to Maryville to school, Springfield might have won three football games which were all turned into duck soup by his right foot with its great, big, educated toe.

Two years ago the Bearcats journeyed to Springfield for a tussle on the chalk-marked field. It was then that the Bears and their folk first became aware that an "Ikey" Ends existed. For it was a well-placed field goal that was the margin of the Maryville victory.

"Ho, hum," said Ikey.

What Springfield said is unprintable. Then, last year, Springfield journeyed to Maryville for the football game which would decide the Missouri Intercollegiate Athletic Association championship. A Maryville victory meant a Maryville championship. Springfield realized it and oh, how the Bears did growl and fight.

And it looked as though they might emerge from the fray victorious, for early in the last quarter a Springfield back kicked a neat goal from place-

Absentee Ballots for Those Living Away from Maryville Will Be Explained by Judges to Those Wishing It.

At different times during the last few years there have been appeals made to students to exercise the right of franchise and vote in all elections. Next Tuesday Missouri will have a general election, at which time a senator for both long and short term, a representative in Congress from each district, a state superintendent of schools, and a judge of the supreme court for Division No. 1, in addition to county officers, will be chosen.

All students of the College who are 21 years old are eligible to vote in this election, and an appeal has been made for these students to exercise this privilege. Students living in Maryville will vote in their respective wards. Students who do not live in Maryville may vote the absentee ballot in any of the voting places in Maryville.

Doubtless county political committees have provided many of the students with their tickets. It is advisable that these tickets be taken to the polls when the student goes to vote. The absentee ballot is filled in only those places where the candidates are voted upon by the entire state. Blank spaces are provided for the representative in Congress and for all of the county officers.

In order to vote a straight ticket, the student will have to check the ticket for his party in the circle at the head of the ticket. He will, however, have to write in the name of all candidates other than those for state officers.

In case the student wishes to "scratch" his ticket, he must write in names of those on another ticket for whom he expects to vote. These names are to be written in the place provided on the ticket. All names must be checked to be counted.

A copy of the instructions to voters prepared for information and published in papers throughout the state appears on page four of this issue. It is advisable that all voters study these instructions.

The law provides that absentee voters be instructed by judges at the polls. All who are not certain about the manner of voting should call for this instruction.

Y. M. C. A.

Dr. Dewar gave a short talk on the subject of Loyalty at the meeting of the Y. M. C. A. last week. Orville Adams was in charge of the meeting and there was a large number present.

Electro-Grid Works to Perfection and Rooters See Bearcats Down Springfield Eleven Friday

Well, the Electro-grid worked. (This is a sort of "I-told-you-so" tone of voice, to those who were skeptical about the electric scoreboard which played the Maryville-Springfield game for Maryville football fans who were unable to sojourn to Southwest Missouri last Friday to see their team in action.)

Yes, the Electro-grid was a success, if the expression on the faces of the rooters in the audience at the Missouri Theatre and the swelling and dying down of spontaneous excitement may be taken as a test of success.

Shortly after 3:30 o'clock last Friday afternoon, the big green and white scoreboard started playing the game for those who were in their seats at the theatre. Play by play, man by man, movement by movement, the big scoreboard portrayed the game, as the Bearcats and the Bears moved backward and forward across the field at Springfield.

The game was played here in Maryville by means of a system of electric lights. There was a light for every player, and there was a light for every play. There were lights for the downs and lights for the yards to go. And then there was one light behind a transparent football gridiron, which showed the ball in its progress through a series

of line plunges, end runs, forward passes, punts, and one successful goal.

At the beginning of the game, the board was explained to those present. The first quarter was played slowly, and before many plays had been thrown on the board, the crowd understood the principle, and soon excitement ran rife.

"Ted has it. It's an end run. There he goes. Whoop!" (And much pounding on back of neighbor.)

"There it is. It's a pass. Catch it, 'Red'. Awww." (With much explanation of why he did not catch it.)

And then came the time when "Ikey" went in to kick. The time-out light went on, and then that for a Maryville substitution. The crowd was watching closely.

"Ikey," someone shouted, and the whole house took up the echo. Sure enough, it was "Ikey" and then the shouting was deafening.

And so it was all through the game. Someone said afterward that it was possible to see more of the details on the scoreboard than if one had been watching the game.

The play-by-play report of the game came to Maryville by telegraph. A Western Union operator was stationed in the theatre, just behind the control board which operated the Electro-grid.

This enabled the game to be played within a few moments after each play was completed in Springfield.

There were no casualties, but those behind the stage say that there came nearly being two deaths: those of the man who received the wire report and the man who operated the board. It came about this way:

The Western Union had a loop from the field at Springfield to the office there. Just as the line-up was being sent to Maryville, someone hit the wire from the field, and the instrument in Maryville stopped ticking. Hasty work on the part of a series of messenger boys was the only thing which permitted the game to be sent here.

The Electro-grid will again be working Friday when the Bearcats meet the Kirksville Bulldogs. The game here will not start until 4 o'clock so that all who wish may attend the Maryville-Trenton game on the College gridiron.

Since the Electro-grid can play the game faster than it is actually being played at Kirksville, the game here will end about the same time as it does there.

Again the Missouri Theatre will be the scene of action, and there will be no admission charge.

EDITH A. BARNARD, Dean of Women.
W. A. RICKENBRODE, Registrar.

COLLEGE OATH
"We will never bring disgrace to this our College, by any act of cowardice or dishonesty. We will fight for the ideals and sacred things of the College. We will reverse and obey the College laws and do our best to include a like respect and reverence in others. We will transmit this College to those who come after us, greater, better, and more beautiful than it was transmitted to us."

THE LIBRARY
A large number of students are of the opinion that the library is a place to carry on a discussion of the day's events, or about the date that was had the night before and many other subjects that have no connection with the work of the College.

According to Mr. Wells, the library is a place to study and in order to study the people in the library have to be quiet. There has been considerable noise going on in the library during the past few weeks and it is annoying to both the students and the faculty members who are trying to make good use of their time.

The west gymnasium has been set aside for the use of students who wish to visit and it is hoped in the future that the students who do not have to study and wish to carry on a conversation with their friends will make use of this room which has been set aside for them and not use the library for this purpose.

COLLEGE AND SUCCESS

Whether it is worth while to send young people to college is a question bobbing up over and over again. Will it really do them any good? Do they not waste their time and money dreamfully and get nothing out of it in proportion to what they and their parents put in? An answer is published by an insurance company which has made a survey of "Who's Who in America" with this in mind. Out of the same number in each group the numbers who will attain distinction, they say, are as follows:

6 uneducated men. 24 men with common school education. 622 men with high school education. 5,728 men with college education.

Men with little or no education can succeed, it is true, but nothing like the same proportions as the men with more training.

Without college training the insurance company says the chances are 90 percent.

Wasting time therefore would seem to be a matter of opinion. The college boys may appear to be wasting a little in their youthful years, but they clearly do not waste as much in the long run.

The man who habitually abuses his opportunities, in college or out, does not become successful. It is this minority of habitual wasters and ne'er-do-wells that make up the small percentage of failures. But taking them as they come, most boys and girls get out of college enough from every point to make the four years spent there eminently worth while.—Maryville Democrat-Forum.

HAVE YOU A CAMERA?

Marvin Westfall, snapshot editor of the Tower, asks the assistance of all the amateur and professional photographers in S. T. C. in getting some real snaps of college activities and interests.

Tara snapshots of interest into any member of the Tower Staff or put them in the black box in the corridor near the library. If the Tower Staff cannot use the snaps they will be returned to the owner provided his name is on the back of each snapshot.

Will You Help?

A successful Year Book depends upon the co-operation of the students, the staff, the photographer, the engraver and the printer.

The Junior class is to be complimented on the rapid manner in which they have had their pictures taken during the past few weeks. This not only helps the student but helps the staff of the Tower, because they receive a substantial discount for the early delivery of photos to the engraver, and all the money saved in this manner goes into something else that will make the Tower still better.

Some suggestions that may be of interest to the students: Don't wear extremes in dresses or suits, be natural; don't make appointments for after-dark for your sitting. Best results are obtained during daylight hours. Don't expect to look your best after being up too late or after too strenuous work. Remember that the members of the Tower staff are serving without pay. Their reward comes in the pride of a well done and the pleasure you

get from the work. You can help make their burden easier by being prompt. You can help make a better school by making a better Tower.

SUPPORT OUR TEAM

Several weeks ago we elected our yell leader and selected his three assistants. Now that we have them the next number is to get behind them and back them in their efforts. Yell leaders are the creators and instillers of pep, the manufacturers of the true fighting spirit, and the external stimuli of the team. The yell leaders must, then, be full of life and pep, and from the try-outs that were had, our yell leaders meet these requirements but they cannot do it by themselves; it takes the entire student body to back them in their efforts.

Next week the Bearcats play Kirksville. This is the most important game of the season. While the Bearcats play away from home, S. T. C. is fortunate in having the only electric score board for a college in this section of the country, and the game will be played play by play here in Maryville. Now again it is up to the student body to attend the game on the grid-graph, to have the same amount of enthusiasm and pep displayed as if the team was on our own gridiron. This can be accomplished if the yell leaders will be on hand, the student body in their places and we will support our team, the last year's champions, in their attempt to again win this honor for S. T. C.

Alumni Banquet will Be Held in Oklahoma

Grads of University of Missouri to Assemble on Night Before Game with Sooners.

Plans for an alumni banquet for graduates and former students of the University of Missouri November 5, the day before the homecoming game between the Tigers and the University of Oklahoma, at Norman, are being completed this week by the Missouri Alumni Association.

The banquet will be in the Chamber of Commerce rooms in Oklahoma City. Dr. and Mrs. Stratton D. Brooks, Coach Gwin Henry and the Tiger football team, and Chester L. Brewer, director of athletics of Missouri, will be the special guests.

On the following afternoon the Tigers will tangle with the Sooner squad on the Owen field at Norman in the annual homecoming game. Alumni and former students of Oklahoma are expected to attend this game in large numbers. A big block of seats on the 50-yard line has been set aside for the Missouri followers, and a special train will bring more than 500 students, the band and the pep squads from Missouri.

Opposing Eleven Somehow Got the Negroes Signals

But Negro Football Team Used Them Anyway With Disastrous Effect

A negro football story comes from Auburn, Ala., the home of Alabama Polytech., in several versions, writes Amos A. Staggs in the Saturday Evening Post.

I have heard Knute Rockne, Notre Dame coach, tell one version. Another is credited in William H. Edwards's book to W. R. Tichenor, veteran southern football official.

Since Sherman marched from Atlanta to the sea, Bob Sponsor has been Auburn's rubber, more or less. Bob had taken a pick-up town team from Auburn to Tuskegee to play the institute one Christmas, and faring illy, had called on a white friend to make a touch. The white man was interested in the details. "What did you do about signals?" he asked.

"Dem niggers of mine couldn't learn no signals," Bob explained. "I jes' chatter some numbers to fool dem Tuskegees, but de numbers didn't mean nothin'. I'd say: 'Eight billions, forty-seven millions, six hundred an' eleven thousand', nine hundred an' ninety nine; tek dat ball, Rancey, and go round dat let' end!"

"Dose de mos' signals dem niggers could learn, and dey doan always git dem. 'At's how come we gets beat and leaves our money in, Tuskegee. Mistah Titch, 'Ah'm jes' as nickless as a ha'nt. Kain't you-all len' me two bits 'till Saddy, please, suh! 'Hones' I pays you back."

More than a million and a half dollars were deposited in school savings banks by pupils in schools of New York City during the year February 1, 1925, to February 1, 1926. In all, 384,558 separate accounts were maintained in 429 school savings banks, a net gain over the previous year of 57,147 individual accounts. In addition 32,151 new interest-bearing accounts were opened for pupils in regular savings banks.

Nelle Castle spent the week-end at her home in Oregon, Mo.

Many Are Served

Forty Extension Courses are Given by College Department in Seventeen Cities and Towns.

The extension department is now offering forty courses in seventeen different cities and towns in Northwest Missouri, according to information compiled today by Mr. Cooper, director of extension and correspondence.

The extension department has grown rapidly in the last few years, and if present plans are able to be carried out, there will be additional expansion in the immediate future.

Following are the towns and courses given this quarter:
Blythdale, Rural Sociology 14 and Health Education 65, Mr. Phillips.
Chillicothe, Child Study 120 and Adolescence 121, Miss Katherine Frank.
Forest City, Citizenship 20 and Later Modern Europe 106, Mr. R. E. Stone.
Gallatin, Vitalized Agriculture 55c, Mr. Cooper.

Liberty, History of English Literature 62a and History of English Literature 62b, Miss Bowman.

Maryville, Ancient Times 10a and Citizenship 20, Mr. Foster; Vitalized Agriculture 55c, Mr. Cooper.

Osborn, Economic Geography 53 and Human Geography 142, Mr. Causfield.

Orriek, American History 12a and History of Missouri 62, Mr. F. C. Irion.

Princeton, Vitalized Agriculture 55c and Rural School Management 23, Mr. Cooper.

Pattonsburg, American History 124a and American History 124b, Mr. A. L. Dailly.

Richmond, American History 12c and History of Education 141, Mr. Irion.

Smithville, American History 124b and History of Missouri 62.

Stanberry, American History 124a and American History 124b, Mr. Cook.

St. Joseph, The Drama 172, Miss Painter; History of English Literature 62a and History of English Literature 62b, Miss Lowery; The Renaissance 102 and the Expansion of Europe 103, Mr. Wells; Principles of Teaching 55 and School Economy 24, Miss Shepherd; Spanish (second quarter), Miss Marguerite Fox.

Skidmore, The Family 90 and Social

Psychology 115, Mr. Wallin.
Burlington Junction, American History 124c and Ideals in American American History 172 (instructor to be selected).

Rock Port, Citizenship 20 and a second course to be selected, Mr. Wallin.

Mrs. Perrin left last Friday morning for St. Paul, Minn. She will return home the first of next week.

Miss Louise Freeman spent the weekend at her home in Trenton, Mo.

Rubye Louise James returned to school Sunday from a week-end visit to her home in Shenandoah, Ia.

Mr. Cooper will judge a school fair at Spickard Saturday afternoon. He will go to Gallatin Friday, and will give a vitalized agriculture extension course that night. On Saturday morning he will give extension courses in Princeton.

Budget For The Next Two Years

(Continued from page 1)
ation of \$15,000. Thirty thousand dollars is the amount asked to defray the expenses of fuel, lights and water.

For campus and grounds, \$8,000 is asked, and for the bureau of research the amount is \$2,500. Five thousand dollars are asked to defray the cost of College publications.

The building aid alteration and extension of present buildings program calls for an appropriation of \$260,000. This amount is divided into three classifications. The first consists of alterations in the main building, including fire exits in the auditorium. For this, \$20,000 is asked. For alterations and extensions at the power house, including a new boiler, a total of \$40,000 is asked.

The third item is \$200,000 for the building of a training school building. This is felt to be one of the greatest needs on the Maryville campus. This is the only school of its kind in the state which does not have its training school building, and the need is felt greatly.

A balance of \$45,649.08 on the new

gymnasium building is still due. This amount was appropriated by the 1925 General Assembly, but the money was never released. The budget calls for the reappropriation of this item.

The budget was presented to the Tax Commission Monday. This body will review it carefully, and then will make recommendations to the legislature when it meets in January. Until these recommendations are made, the action of the commission will not be known. In speaking of the budget this year,

President Lamkin said that the amount budget asks the College will be able to carry on its program of growth and necessary for operation. He said that expansion. Without it, the institution with the appropriation for which the will be hampered.

Society

The annual Halloween party will be given at the College this coming Friday night. As in the past everyone is invited to come in a masquerade costume and join in the fun. Even though one can not come in a costume he is invited to come anyway. The party is being sponsored by the Y. M. C. A. and the Y. W. C. A.

The party is scheduled to start at eight o'clock and plenty of time for having a grand and glorious evening has been promised. Every College student is invited to come out and help the goblins and the witches perform on the night of October twenty-ninth.

The Jones family bought the auto they did because the earnest young salesman—

Laughed at all Mr. Jones' jokes.

Told Mrs. Jones she couldn't have a daughter that old.

Told Susie she looked like Mary Pickford, and dated her for a dance. Told Willie Jones he had a build like Dempsey.

Said the baby took after both parents.

And only smiled when the Jones Airedale nipped him.

High School Notes

Grant City

The Grant City High School opened the school year with an enrollment of one hundred and thirty students, and now as the students are launching into their second six-weeks period, all things are pointing toward a very successful year.

Two members of the faculty are graduates of the Northwest State Teachers College of Maryville. They are Miss Elita Sutterlin, instructor of English, and Miss Nellie Jones, teacher of History and Latin.

The ghosts and witches are beginning to put in their annual appearance here for the latter part of the week at the parties of the classes.

The students are pulling hard for a year-book this season and it is now being taken up with the school board. The "Out-of-Grant" of former years has proved a great success and as enthusiasm is running high this year, the annual this year will be more heartily supported than ever.

Converse

The Converse School and Community Fair, held October 16, was very much of a success. Ideal weather prevailed and a large crowd was in attendance. The farm exhibits were good, considering the lateness of the season, and the cooking, sewing and school exhibits were excellent. The Barnesville School, taught by Miss Lena Watson, took first prize in the rural school department, and Gower High School in the high school department.

Supt. P. L. Skith of Gower, Miss Blanche Whitlow, Home Economics teacher of Plattsburg High School, Mrs. Frances Weir, Superintendent of Clinton County Schools, and Mr. Owen McMahon, extension agent for Clinton County very kindly donated their services as judges of the exhibits.

A good sum of money was cleared on the plate luncheon, the school stands, and the bazaar auction, held in connection with the Fair. Most of this money will be used to pay existing school debts, but part of it will be used to finance various school enterprises.

Probably the most interesting feature of the day was the basketball tournament in which the boys and girls teams of Grayson, Turney, and Converse participated. Although not successful in drawing either boys, the Converse boys and girls won all their games, thus capturing the banners offered the champions of the day. The scores were as follows: Turney girls 8, Converse girls 18; Turney boys 10, Converse boys 11; Grayson girls 12, Converse girls 16; Grayson boys 6, Converse boys 8. The boys were drawn by the Turney boys and the Grayson girls.

The first games of the Clinton County Round Robin series were played between Grayson and Converse at Grayson, October 14th. Converse was victorious in both boys and girls games. The scores in the boys game were 22 and 17, and the girls game 28 and 14. Converse played their second games of the series with Turney at Turney October 22. The results of these games were: Turney girls 18, Converse girls 2; Turney boys 10, Converse boys 13. The coaches of the Converse teams this year are Miss Florence Shepherd and Sut. Neal D. Vogelgesang.

Harmony

Harmony High School boys ended their basketball season last Friday afternoon, with a score of four games to their credit.

Last week was an unusual lucky week for the boys; they won three of their four games three nights in succession. Mr. Ford, the coach, is well pleased with the way the boys have been playing.

The English department of the High

School will publish a monthly newspaper called "The Harmonite". The editor-in-chief, Miss Nova King, with her co-editors are working on the first edition and expect to have it ready for the press by the last of next week.

The High School orchestra students took their lessons from Vernon Barrett last Saturday. Mr. Barrett is a student at S.T.C. He will conduct the Harmony orchestra this year.

Deulah Wray, a junior in the High School, won a gold medal for excellence in acting in the high school opera.

Miss Wray has starred in several high school plays but this time exceeded her past ability.

Elmo

A number of interesting events and different forms of entertainment are on the program of the Elmo High School for the coming week, among the more prominent being a basketball game between Elmo and Quitman Friday night. Another is a box supper to be held at Salem on the same evening.

November 11, Armistice Day, the Junior and Senior classes with the aid of the faculty, will present "Tour America Tonight". This entertainment is similar to the annual circus that is presented by the high school, yet it has many unique features that are different from that of the circus. There are various historic scenes depicted and fantastic specialties will be interspersed between numbers.

Edgerton

The Edgerton High School's football team met that of the Weston High School on the Edgerton gridiron October 15. The entire game was cleanly and well played. Edgerton made the first score five minutes after the game started and with the aid of several long end runs was able to run the score up to 19 to 0 at the end of the first half. In the second half the Weston team came back with a large amount of fight but was unable to go thru the Edgerton line. The game ended with the score 36-0, for Edgerton.

But it was a different story in the line of basketball. The girl's team of Weston defeated the girl's team of Edgerton 31-23. Good teamwork was displayed throughout the entire game.

The students of the high school are planning to occupy their new building, which is at present under construction, but is expected to be finished soon.

Craig

The enrollment of the Craig High School this year is the largest that it has ever been, that of 91 students. The work of organizing the various clubs of the school has been completed and the literary and dramatic clubs are hard at work. An opera "Huldra from Holland" is now being practiced for presentation Thanksgiving. This takes the place of the annual carnival that has been given on Halloween in the past years.

The basketball teams are rounding into shape, but the work has been slow

Wabash Railway

due to the unmerciful rains for the past few weeks.

Exceeding interest has been taken in the school affairs and it is hoped to make this the best year yet for the High School. There are nineteen members in the senior class. The Student Body Organization has charge of the programs in the chapel.

Gilman City

Two games of basketball were played by the Gilman High School October 15 at Gilman City. The boys team defeated that of Coffey by a score of 23-21 and the girls won from the girl's team of Coffey by 21-12. The teams played a good brand of basketball.

Grandview

A large crowd attended the annual community fair held at the Grandview school grounds October 15. There was a large number of fine exhibits of farm products, canned fruits and vegetables, pastries and fancy work. Lunch was served by the senior class, which was in charge of that part of the program. The afternoon program was arranged in three divisions. A Columbus Pageant was very effectively staged by the classes of the seventh and eighth grades. The second division was devoted to contests. A hog calling contest was included, as was also a dog show. The closing event was a basketball game in which Grandview was defeated 19-14 by the McFall High School.

Mattland

The students of the High School have been divided into two groups for literary society work for the coming year. Following are the officers of the Hoot Owls: president, Bruce Johnson; vice-president, Zolan Williams; Secretary-treasurer, Max Phillips; pianist, Wilma Richardson; sergeant at arms, Joe Miller. Mr. Chappell and Mr. Sawyer are the sponsors.

The officers of the Websterian literary society are: president Reid Hooper; vice-president, Ella Fries; secretary-treasurer, Mona Maxwell; pianist, Mona Maxwell; sergeant at arms, Leonard Elder. The sponsors are Mrs. Chappell and Miss Babb.

Union Star

The Union Star boys' basketball team defeated the boys' team of Stewartsville 19-13 in one of the closest and fastest games of the season October 15. Stewartsville led in the early part of the fray but Union Star was able to overcome the lead and forge ahead in the latter part of the game. The girls' team was not as successful as that of the boys and were defeated 6-4 by the Stewartsville girls.

in a good game of basketball. This is the second loss for the girls but they are playing a good brand of basketball and are expecting to win the next game.

The juniors journeyed to King City on the evening of October 15, where they were entertained by their former sponsor, Mrs. John McCollum. Games and contests were played and everyone participated in the good time. A dainty luncheon of ice cream and cake was served.

DAWN

The enrollment of the Dawn High School is fifty-nine for the coming semester. The basketball team, has a very successful season so far this year, having played seven games, winning five and tying one. The county tournament will be held at the Chillicothe high

school auditorium November 5 and 6. Coach Crooch expects to produce a winning team for this season.

W. R. Carter, superintendent of the Dawn Consolidated Schools, is the president of the Livingston County Association for the coming year.

A carnival was held at the school on the evening of October fifteenth and the proceeds are to be used for the benefit of the athletic fund.

Henrietta

The Henrietta football team went through the line and around the ends of the Norborne High School's team at will, winning the game 26-0 at the Norborne field October 15. The Norborne team fought hard in trying to plug the holes made by the Henrietta players but was unsuccessful in their efforts.

The Stroller

By T. T. T.

If this cold weather keeps up the Stroller is going to have to work just that much harder in order to keep from freezing to death. Which reminds her that Mr. Credit is of the opinion that Residence Hall is overheated, at least that is the impression that was given. Mr. Credit, when invited in to wait in the reception room while a young lady was being called, decided quite suddenly that the atmospheric conditions of the Hall were worse than those on the outside (of him). Anyway, he waited outside, by saying "that it was too hot inside."

It seems queer that all the stories that have been told this last week to the Stroller have been on the faculty and since none of them are so terrible, a few will be given. Mr. Cooper is of the belief that the twenty-third day of the month is worse than any thirteenth day that he has ever seen, because on the former day he had his ear struck, lost a tire and broke his watch all on the same day. He might have lost his religion also, but the Stroller can not stay that for sure since he was fortunate enough not to be along.

If anyone who has had considerable experience firing a furnace and would like to inform Mr. Maple the correct way of performing this act, the Stroller is sure that Mr. Maple would appreciate the advice if the giver would see him sometime in the very near future.

The Stroller was very interested in the game played last week on the new electro-grid. Several times Gordon Roach, the ball pusher, and Ward Barnes, the head linesman, would get excited and wondered why the points did not count when they carried the ball over for two touchdowns.

It is rumored that there are several persons taking special dancing lessons from a very good dancer. The Stroller wishes that these persons would tell her so that he could persuade this dancer to teach her a few steps also.

Perrin Hall has a real honest to goodness and genuine cake eater. If you do not believe the Stroller ask Wayne Sauseman.

Kirkville Is Next

(Continued from page 1)

Bearcats than to Springfield, The Maryville team was set back for a total of sixty-five yards, forty-five of which came on three fifteen-yard penalties. One of these was outstandingly costly.

O'Banion had taken the ball through the line and had placed it on the Springfield 2-yard line. But someone had made a mistake, and the Bearcats suffered a 15-yard penalty from the center of the field.

Springfield was set back twenty-five yards.

On punts the Bears were superior. Their ten kicks averaged 39 yards 18 inches, while the twelve Maryville punts had an average of 37 yards 6 inches.

In losses, Maryville suffered 34 yards while Springfield was taken back for a total of 24 yards.

The Bearcats completed three passes for a total of forty yards. Six flips were incomplete, and Search and Willoughby, each intercepted a Springfield pass.

The Bears completed three passes for twenty-seven yards and nine heaves were grounded.

Each team attempted two field goals. Maryville made one and missed one of twenty-eight yards distance. Springfield missed one kick from the 37-yard line and one from the 35-yard line.

Poster Wallace and Marion Gile, Maryville fans who witnessed the game, say that all members of the team performed well. There were no "weak sisters" in the line-up at any time. The work in the backfield by Search, Willoughby and O'Banion was complimented by these fans.

Alumni Notes

Dale Caven of Spickard, Mo., who received his life certificate from STC is now continuing his studies at the University of Missouri.

Marie Bruntermann, who last year attended STC, is now teaching about thirty miles southwest of Jacksonville, Fla.

Mr. and Mrs. Ray Bloomfield, otherwise known as Able and Ethel, have many interesting things to tell about their new city and school in Concord, N. O. Mrs. Bloomfield is teaching five classes in physical education while Able is teaching bookkeeping, shorthand, and business methods. Both are sponsors of the junior class while Able is sponsor of the Hi-Y and captain of the Y. M. C. A. Mrs. Bloomfield is also sponsor of the Girls' Athletic Association, which is similar to the W. A. A.

Eulah Mae Pearce, A. B., 1924, is assistant Dean of Women at the State Teachers College, Abbeville, South Dakota, where Miss Ella Lee Moulton, former summer school instructor here, is Dean of Women.

Students Meet Team at Train Saturday

Yells at Station and in Business District Greet Bearcats as They Return From Springfield.

A large number of students were on hand at the station last Saturday morning to meet the football team which was returning from Springfield.

Though the day was cold and a drizzling rain made the weather very disagreeable, it did not dampen the spirits of the students who ventured forth in two large trucks and a big bus.

The gang was rounded up about an hour before train time and rode around through the business section of the city singing and yelling, each one attempting to out-do his neighbor. Then at eleven-thirty, the cars drove to the station where a real pep meeting was held under the direction of Ferguson, one of the peppy cheer leaders. When the train pulled into the station the passengers must have thought that all bedlam had been turned loose when the students opened up with their lusty college yells.

After the team had left the train the group adjourned to the business district again and finished the pep meeting with a few more yells and then disbanded. It is hoped that still more will be on hand next week when the team returns from their game with Kirksville.

With the Exchanges

From the Southwest Standard, of the Southwest Missouri State Teachers College, of Springfield, we learn that the last issue of their paper is the largest edition that the paper has ever experienced, with the exception of the Teachers' Number last year which contained sixteen pages.

The Western Courier, of the Western Illinois State Teachers College, Malcomb, states that the college was celebrating their annual homecoming days October 22 and 23.

The College Coyote, of the College of Idaho, Caldwell, says that debate is taking the foremost place in the minds of the students at this time.

The Index, of the Northeast State Teachers College, Kirksville, is preparing to welcome the teachers at the annual Northeast Missouri Meeting which is to be held October 28, 29 and 30.

The Student, of the Central Missouri State Teachers College, Warrensburg, contains an article in which the Student Council votes to abolish their Kangaroo and Kangarette court for this year.

The Exponent, Northern State Teachers College, Aberdeen, South Dakota, states that the freshmen as a purely voluntary act decide to establish tradition of the Emerald head dress for the coming term.

From the Park Stylus, of Park College, Parkville, Mo., we learn that a new gift of \$10,000 from Rev. Arthur Herr and the Misses Herr assures immediate construction of the new dormitory for women.

The Blue and White Tell-Tale is a new high school paper, published by the Hopkins, Mo., High School.

The Spectator, of Junior College, St. Joseph, is published monthly by the members of the Student Senate.

CLASSICAL STUDY MAINTAINS

Of slightly more than 5,000 students enrolled in the three high schools of Providence, R. I., 840, or about one-sixth are in Classical High School. This represents the same proportion of Providence students pursuing classical courses as in 1881 when one-sixth of the students in Providence High School were in the classical department. All students in Classical High School take Latin, but fewer than half study Greek.

Student Life Centers Around the Alarm Clock, or So It Would Seem

The tick-tock, tick-tock, tick-tock of an alarm clock is the first sound a person hears when he enters a college student's room. Whether the student is a man or a woman, a freshman or a senior, he possesses an alarm clock—one of the most necessary articles in a student's life.

It is upon the alarm clock, and usually not his roommate, that the student depends to get him up in the morning so he will be sure to make his 8 o'clock class; to tell him when it is time to go to lunch or dinner; and to tell him when to leave the house to go on a date—or if school work is the important thing, when he should stop studying.

"I just can't get along without my alarm clock," said one senior. "Even

though I do not get homesick any more when I am in my room. It is just a part of my school life. I have the habit of depending on it to such an extent that the first thing I take out of my trunk when I get home in the summer is my alarm clock and start it to going."

"Until I came to the college I didn't know what great things alarm clocks were," said a freshman. "I never had one in my room at home as I always depended on mother or dad to get me up in the morning. Then, too, when I was in high school I didn't have to spend the hours studying at night that I do now, so I just didn't need an alarm clock."

Alarm clocks then serve the dual pur-

pose of telling the time, as well as being a "mechanical contrivance to arouse a person from sleep" as Webster phrases it.

Many styles of alarm clocks are to be found in student's rooms. One of the most favored types is the radium faced dial which tells its owner the time either night or day. The standard sized alarm clock is about twelve inches in circumference. A majority of the clocks are round, but there are many which are square or octagon shaped.

"Baby size" clocks are also favored. No matter the size or the shape of the clock, it must have an alarm bell which will wake the soundest sleeper so he can make that 8 o'clock class. For this reason some students prefer a clock having a repeating alarm. If they yawn not awakened when the alarm rings the first time, by the time it has rung again the roommate is awake or someone in the house is shouting, "Shut that thing off."

Alarm clocks may be heard trying

to awake their owners at all hours of the night and day. Perhaps the student gets sleepy just after lunch. He feels that he must take a nap, but he has a date for the matinee. The alarm is set to awaken him at 2:30 o'clock. Another student comes home from his 3 o'clock class and decides to sleep

awhile before dinner. The alarm clock awakes him at 5:30 o'clock.

The alarm clock bell is the first thing the student hears in the morning and the last thing he says at night is "Say, did you wind the clock?"—The Columbian Missourian.

Instructions to Voters

On receipt of his ballot the voter shall forthwith, and without leaving the enclosed space, retire alone to one of the voting booths so provided, and shall prepare his ballot for voting in the following manner:

Should the voter desire to vote a "straight" party ticket he shall place a cross (X) mark in the circle immediately below the party name.

If the voter desires to vote for one or more candidates on more than one party ticket, by voting what is commonly called a "split ticket" he may place a cross (X) mark in the circle immediately below one party name and mark cross (X) marks in the squares at the left of the names of candidates on other tickets for whom he wishes to vote.

If the voter desires to vote for one or more candidates whose name or names do not appear on the printed ballot he may do so by drawing a line through the printed name of candidate for such office, and writing below such canceled name the name of the person for whom he desires to vote, and placing a cross mark in the square at the left of such name.

Where there are two or more candidates for like office in a group a cross (X) mark in the

square to the left of a candidate's name, automatically votes against the candidate whose name appears within the same horizontal lines in the column under the circle in which appears the cross (X) mark unless the voter indicates another candidate to be voted against by drawing a line through such candidate name.

All candidates of the party whose circle is marked shall be counted as voted for excepting where squares are crossed preceding the names of the candidates in other columns; if two or more candidates for the same office are thus designated, neither shall be counted.

If the cross (X) is not placed in the circle immediately below the party name at the head of the column, but does appear in the squares opposite the various candidates' names, then only these names shall be counted for, and none other.

A cross (X) mark is any line crossing any other line at any angle within the voting space, and no ballot shall be declared void because a cross (X) mark therein is irregular in form.

It shall not be lawful to deface or tear a ballot in any manner nor to erase any printed name (except as provided above in this section.)

figure, word or letter therefrom, nor to erase any mark made thereon by such voter, nor inclose in the folded ballot any other paper or any article. If the voter deface or tear a ballot, or wrongly mark the name or make an erasure therein, he may obtain one additional ballot on returning to the ballot clerk the one so defaced or wrongly marked.

A ballot placed in the ballot box without any mark shall not be counted. Ballots shall be counted only for the person for whom the marks thereon are applicable; when a voter shall place a mark against two or more names for the same office, and only one candidate is to be chosen for the office none of the candidates shall be deemed to have been voted for and the ballots shall not be counted for either such candidate.

Before leaving the booth the voter shall fold his ballot in such a manner as to conceal his marks thereon. He shall mark his ballot without undue delay. He shall then hand the ballot to the judge of election selected to take ballots, who shall number the ballot and deposit it in the ballot box.

The voter shall quit and leave said enclosed place as soon as possible.
